- There are basically 5 types of brick or stucco styles thru-out the neighborhood, which the following color options are based upon. Each brick or stucco color will show several options in siding/stucco colors, and will have corresponding trim colors to go with. Suggestions for possible shutter and/or front door colors are provided as well for the convenience of the homeowners, but are not required.
- Note: It is recommended that any Garage Doors and Fence colors should match the siding or trim color of the house.
